

Paradise Valley Campground Owners Association

ARCHITECTURAL COMMITTEE

2010 / 2011

The purpose and mission of the Architectural Committee is to assist Lot owners when they are planning new construction, repairs or renovation and to assure compliance with our Covenants.

It is the intent of this Committee to be a sounding board for Lot owners, before, during and after construction has started. Make us a part of your planning to ensure that your project is in compliance with our Covenants and new White County regulations. If this Committee is involved from the beginning, violations of our Covenants will be prevented and you will gain a better understanding of County Permit requirements.

This Committee will accept your application for construction, or we will meet with you personally to assist you in any way that we can. It is our desire to approve applications in a positive manner and we will do all that we can to help you complete your project.

We request that to insure a concise authorization experience that you maintain contact with the same person at all times. This will insure that there are no conflicts with interpretations of rules or guidelines. The committee will strive to insure that the same guidelines are applied to all Lot owners in approving permits.

Three completed self explanatory forms are required by this Committee before any work is approved and can begin; 1) Instructions, 2) Request, 3) Inspection Agreement. For simple painting and maintenance ask about the one page Affidavit.

2010 / 2011 Committee members are:

Chairman:	Skip Walton
Member:	Robert Lucas
Member	Sam Owens
Member	Gary Parker
